

Ardente Winery Cabernet Sauvignon - 1999

Dark, ruby red wine of extraordinary complexity. The uniqueness of this wine can be attributed to the conditions found only on Atlas Peak, including the rich volcanic soil indigenous to this part of the Napa Valley and a distinctive microclimate located at an altitude of 1500 Feet.

The result is a wine with an intense yet delicate nose, rich, satisfying mouth feel, a pleasant finish with just the right amount of tannin, and the promise of a long aging.

"91" rating from The Wine News

-Awarded Silver Medal by The SF Chronicle Wine Competition
